

## POPE WOULD MEDIATE

But France Objects to the Church's Interference in Corea.

Chinese Forces in Northern Corea Cut Off from Supplies.

Report at Tien-Tsin that a Japanese Warship Has Been Sunk.

(By Associated Press.)

LONDON, Sept. 10.—A special despatch received here to-day from Rome says that the Pope is reported to have expressed a wish to arrange the troubles between China and Japan, in the fear that the intervention of the Church would undo the work which France was carrying on in the East.

A despatch from Shanghai says that the Chinese transport Chean, while proceeding to Formosa, with 1,400 troops on board, was wrecked in the Che-Tung Pass. A panic occurred on board when the steamer went ashore, but all the soldiers and the crew of the Chean were safely landed in her boats.

There is no hope of saving the transport.

Another despatch from Shanghai says that on Saturday last some Chinese officials boarded a French mail steamer en route to Japan and demanded to search the ship for Japanese officials coming from Europe, who were said to be returning home on board of her. The captain of the steamer refused to allow his ship to be searched, and was obliged to threaten to ask for the assistance of a French warship before the local officials withdrew.

SHANGHAI, Sept. 10.—It is reported that the Chinese forces have been cut off in Northern Corea from their base of supplies. The troops are reported to be without supplies, and are said to have been compelled to kill the cavalry ponies for food.

According to advices received here all the foreign employees of the Japanese Red Cross have been dismissed and the Japanese naval officials are said to be concealing the injuries done to their warships. The steel cruiser Yaweyama Kan has been docked at Nagasaki for the repair of injuries sustained. It is believed, in a naval engagement.

The native newspapers say that the Japanese forces north of Seoul, the capital of Corea, are suffering from the effects of the recent rains. Sickness in the Chinese camp is also announced.

It is reported on good local authority that the Mikado, accompanied by his Ministers of War and Marine and by the General Staff, is proceeding to Heroshima, the point where the troops of Japan embarked for Corea.

TIENTSIN, Sept. 10.—According to an official statement made here, the Japanese cruiser Hi-Yei (a composite vessel of 2,264 tons, 2,277 horse power, carrying twenty-four guns and estimated to have a sea speed of nineteen knots) has been sunk.

The Hi-Yei, it appears, recently engaged the Chinese cruiser Chin-Yuen,

and was so disabled that she sank while on her way home.

## NO ARMS ON THE CAM.

Sporting Rifles in Her Cargo Returned to the Shippers.

Barber & Co., the agents for the steamship Cam, stated this morning that there will be no trouble with the Federal authorities because of her carrying any munitions of war to Yokohama for the Japanese Government. Capt. Lathrop, of the Cam, had agreed to carry some sporting goods, such as fowling pieces, but to avoid all possible complications had decided not to do so. Such of the goods as had been shipped were unloaded and returned to the shippers.

The Cam is still at Bayonne, N. J., taking in cargo. She is not expected to sail before Wednesday.

## CHICKEN STALLS CLOSED.

Health Board Finally Abates an Essex Market Nuisance.

The chicken stalls in Essex Market were closed this morning by order of the Board of Health. They had long been a source of annoyance to the Essex Market Police Court officials, and also to the pupils attending the grammar school branch, in the building. A year ago the Board of Health undertook to investigate the nuisance, but took no action until today.

President Wilson, of the Board of Health, declared that they are too far removed from dwellings to be a nuisance.

President Wilson will this afternoon visit the poultry market opposite Governor's Hospital, which is said to cause great annoyance to the patients in the hospital.

Satellit Would Not Interfere.

OMAHA, Neb., Sept. 10.—The Committee sent by certain priests in the Nebraska diocese, who are protesting against the authority of Bishop Bonason, to Mr. Satellit to secure relief from what they term the priest's tyranny, failed in its mission. Mr. Satellit refused to interfere.

## DIVVER'S GREAT DAY.

Annual Chowder Party of His Association in Full Blast.

\$5 Tickets Reduced to \$1 and Given Away by Wholesale.

A Fight Caused One Arrest Before the Party Embarked.

Patrick J. Divver is happy to-day. It is the occasion of the annual chowder of the Divver Association and he is happy because the extraordinary efforts he put forward to make a show proved successful.

The usual price of tickets for the chowder is \$5. The police force here, however, sold a good many and the dives managed to dispose of more. This year the dives are closed and the police could not handle the tickets.

The prospects for a big turnout looked very blue for a while. Divver's headquarters sold a good many and the dives managed to dispose of more. This year the dives are closed and the police could not handle the tickets.

The price of tickets was reduced to \$1. The police force here, however, sold a good many and the dives managed to dispose of more. This year the dives are closed and the police could not handle the tickets.

The Italians in the district who make living by selling fruit and those in the Street-Cleaning Department, will always remember the Divver Association Chowder to-day. It is said that they were taxed \$1 each for tickets, and then the pastboard was taken away from them.

The parade to the boat was imposing, but it is claimed, will not be a marker to the parade on the return to-night. They assembled at the headquarters at 9 o'clock. The boys wore white Fedora hats and carried bamboo canes. There were some 500 in the parade, two brass bands and three banners. The most conspicuous figure in the line were Patrick Divver, Harry Howard, the veteran fireman, and Justice Hogan.

The line of march extended through the principal streets of the Second District. A coach containing "Dry Goods" Sullivan, Justice Martin, Aldermen Flynn and Brown, and Assemblyman M. J. Callahan followed the parade.

The Iron Steamboat Sirus took the Association to Wiltz's Point, L. I. The line of march was led by a band of boys, followed by a band of boys, followed by a band of boys.

Just before the Sirus pulled out into the river, an alleged Divverite tried to pass over the gang-plank without a badge, saying that he had lost it. When the ticket-taker refused to admit him to the boat, the would-be excursionist drew him a stunning blow on the head with a box, inflicting a severe scalp wound. After some trouble, the man was arrested.

Fireworks have been distributed about the Second District for use to-night, and the word has been passed that all the boys who want a nice new white hat shall be at the pier when the boat returns. In return he must wear it to to-night's parade and march behind the band.

Mrs. Winkler's "Soothing Syrup" for children teething is the family favorite. 25c.

## THE DIVVERS HIS PREY.

But "Sneaking Gambler" Smith Was Arrested on the Pier.

Just before the steamboat Sirus with the members of the P. Divver Association on board, bound for their annual outing at Sumner's Point, L. I., left her pier this morning a tall man, neatly dressed, wearing the regulation white felt hat and P. Divver Association badge, and carrying an innocent-looking box, walked onto the pier. He was going to the picnic and was accompanied by a crowd of young fellows, all of whom looked decidedly sporty.

The man was about to step on the gang-plank when an officer in civilian's attire stepped up to him and tapping him on the shoulder said he "wanted him."

The man, with the box, was John A. Smith, known as a "sneaking gambler," and the little box contained what is known as a "can," a gambling device by which the operator is the only one who has a chance. The officer was Detective Edward F. Harris, of Gravesend.

Smith was arrested at Cony Island a month ago for operating a gambling game and was released in \$500 bail by Justice Finerty yesterday. Justice Finerty at night heard that Smith was going to jump his bail, and thus this morning's arrest. It was probably a lucky thing for certain members of the Association.

Smith was taken to the Madison Street Station and said that he and another man had planned to take the "game" to the picnic to-day. He admitted it was a "sneaking game," and said they intended to work it up on the Divverites at the outing.

Smith, however, denied that the "game" belonged to him, and refused to take it with him when he left the station house to go to the Tombs Police Court.

In the Tombs Police Court Smith was turned over to the custody of Detective Harris and he will be taken back to Cony Island.

## Invited to Form the Seventy.

Chairman Laroque, of the Citizens' Anti-Tammany Committee, said this morning that invitations had been sent out to prominent citizens interested in the movement for better government asking them to serve on the Committee of Seventy. All acceptances are treated as said, he would not give out names for publication.
